Good morning/afternoon/evening. Could I please speak to the head of this household?

Hello, my name is \_\_\_ and I work for the CCCM Camp Profiling exercise, an assessment conducted by the NGO Danish Refugee Council, UNHCR and other CCCM organisations. We are conducting an assessment in the Sittwe camps to determine the number of people living in the Sittwe rural camps and some other basic demographic information. This assessment is not linked to any aid for any particular village or camp community. Instead, its aim is to help the government and the humanitarian community to support planning and policies that aim to benefit those affected by displacement in Sittwe township in the future. We will not ask or record your name.

You can decide whether you want to take part to take the interview or not. You have the right to refuse to answer any question, or to leave the interview at any time. If you choose not to take part or to skip any questions, it will have no negative impacts on your ability to access services from any humanitarian agency. Please feel free to ask me any questions now, or at any point during the interview. Do you consent to participate in this interview?

Introduce your team and the aim of the focus group discussion:

We are a team from the CCCM Camp Profiling exercise, an assessment conducted by the NGO Danish Refugee Council, UNHCR and other CCCM organisations. The profiling exercise is not linked to any aid for any particular village or camp community. Instead, its aim is to help the government and the humanitarian community to support planning and policies that aim to benefit those affected by displacement in Sittwe township in the future. Therefore, we would like to discuss with you some topics and learn from your opinions and experiences. We are not going to ask questions about your individual households but will ask about your community in general. You are under no obligation to participate, and you are free not to answer any of the posed questions. The information you give us will be kept anonymously. We will not write your name and your name will never appear in our research. Nothing you say in this discussion will affect your relationship with DRC, UNHCR, the Government or any other organisation. We cannot offer you any compensation for participating in this assessment.

The discussion should take approximately 1.5 hours. Do you have any questions?

- Introduce yourself, as the facilitator, and the note taker - clarify what your roles are.
- Set the ground rules for the discussion:

"We are interested in opinions and experiences of everyone present, so do give time and space to each other to contribute", "do avoid parallel discussions, as that will make it very difficult for the note taker to capture the discussion", 'we are interested in all different views, even if they don't represent everyone in the community"

- Ask for permission to take notes
- Ask permission to record the FGD

2. QUESTIONS	
INTRA-COMMUNITY RELATIONS	
1	<p>What do you define as “your community” (i.e. self-identified social and support network)? Is “your community” different to what it was before 2012? If so, how?</p> <p>Probe: Village? Group within village (neighbourhood, gender etc.)? What is similar/different to before 2012?</p>
ANSWER following questions for YOUR COMMUNITY	
2	<p>Do people in your camp/village trust each other? Why? Who are people more likely to trust in this camp/village? Why?</p> <p>Probe: Their neighbors? People from the same place of origin? Same sex? Same age? Village administrators? People in makeshift shelters? Religious leaders?</p> <p>What do you mean by “trust” (to what level? Trust enough to work with? Trust to go to if having a serious problem? Trust that they will not harm you?)</p>
3	<p>What type of social groups are active in your community? Are many people part of these groups? Are there any people in this community that are left out or do not have access to these community groups (by social group)?</p> <p>Probe: How were these community groups formed? Self-formed? NGO-established? Can anyone join these groups if they want to?</p>
4	<p>How would you characterise the interaction between the people living in makeshift shelters (tents and longhouse extensions) and the people living in the longhouses? Is there any hostility or tensions? If yes, around what issues?</p> <p>How do you think dynamics between the people in the makeshift shelters and the people in the camp will develop in the next year? Are there any ways these dynamics could be improved? What type of social groups do people living in the makeshift shelters participate in?</p>
5	<p>What are the main movements of people changing residence between the camps/villages in the Sittwe Rural area? What camps/village do they come from and go to? What are the main reasons they move? Is the moving permanent or only for part of the year? If part of the year, what part? Do they tend to move with their whole family or only a part? What part?</p>
6	<p>Are you able to do a job in the village/camp using your existing skills from before 2012?</p> <p>What type of jobs would you like to do while living within the Sittwe rural area? Why?</p> <p>If you could do any job, what type of job would you like to do?</p>
RELATIONSHIPS BETWEEN COMMUNITIES	
7	<p>Are there any activities during the day which people from your community do together with persons from surrounding villages/wards? (note down what activities and which segments of the community)</p>
8	<p>How was the attitude of the host villages towards you when you arrived in this location and how is it today? What has changed, and if so why do you think it has? How do you think these dynamics will develop in the next year? Do people in this camp trust people from the surrounding villages?</p>
9	<p>Have households/persons from the host villages provided support to people in your community? What was provided immediately after 2012? What is provided now? How?</p>

DISPLACEMENT TRENDS, PLANS AND ASPIRATIONS

10	<p>If they closed the camps, what do you think are the viable/realistic options of where the people currently living in the camps could go? Where do you realistically think most households from your community will be in one year from now and in five years from now? What are your community's preference of where to live in one year from now? In five years from now?</p> <p>Where do you think it would be best for your children to live in the future? And why? Are there any groups within your community that have different preferences of where they want to live in the future? Who are they? Where do they want to live? Why different?</p> <p>Probe: Urban/rural Sittwe? Villages inside or outside the Sittwe rural camp area? Outside of Sittwe? Closer to the markets, further away? Why?</p>
11	<p>If people would move to another place, who would they prefer to move with? Would people in your community move without this group?</p> <p>Probe: Household, family, whole current camp, whole current sector, people from place of origin, people from a subset of place of origin? Why?</p>
12	<p>What are the main factors that influence the preference of people in this community about where they would prefer to go in future?</p>
13	<p>How could your life be improved if you need to stay in the camp for more than one year?</p>
14	<p>If you needed to stay in longhouses for more than a year, how could they be improved?</p> <p>Probe: How to improve privacy, safety, positive dynamics amongst inhabitants?</p>

# ACKNOWLEDGEMENTS

The Sittwe Profiling project was a thoroughly collaborative endeavor from start to finish. I would like to extend my deepest gratitude to all those who have contributed to the process. First and foremost, the profiling exercise would not have been possible without the wide support of the Rakhine State Government.

Special thanks goes to the 65 Government and camp-based data collectors and supervisors who worked tirelessly for months to collect the data, and the more than 17,000 Muslim and Rakhine people who took the time to share their experience through the surveys.

The exercise was a Camp Coordination and Camp Management (CCCM) initiative, led by the Danish Refugee Council (DRC) and the United Nations High Commissioner for Refugees (UNHCR). All Clusters and many Cluster partners at Rakhine and national levels contributed to the questionnaire design, analysis and helped develop recommendations based on the results. A Technical Working Group made up of representatives from DRC, International Rescue Committee, International Organisation for Migration, Lutheran World Federation, Norwegian Refugee Council, PLAN, Relief International, the Protection Working Group, UN Office for the Coordination of Humanitarian Affairs (OCHA), and UNHCR steered the different phases of the exercise. The Joint IDP Profiling Service (JIPS) offered technical support throughout the exercise as well as the NorCap roster during data analysis.

Several people made particularly important contributions to the exercise. I extend my heartfelt thanks to: Edward Benson, Sam Bollier, Tim Britten, Courtney Cox, Pietro Dal Dosso, Kasper Engborg, Sophie Everest, Valeria Gholizadeh Gajkar, Stefan Gherman, Allison Gocotano, Nicolas Granmont, Elizabeth Hallinan, Leanne Hanmore, Nan Hlaing, Zaw Min Htun, Min Htut, Ryo Kato, Assanke Koedam, Monroe Lacerte, Oliver Lough, Parveen Mann, Cho Maung, Thura Maung, Aung Myint, Maung Oo Kyaw, Eliana Rueda, Kyaw Kyaw San, Per Schoning, Htun Hla Sein, Yadu Shrestha, Kate Smith, Bruce Spires, Stephanie Tam, Hay Mar Thanoo, Robert Trigwell, Richard Tracey, Tim Moe Twe and Stephen Williams. Finally, the exercise would not have been possible without the tireless efforts of the DRC CCCM, administration, finance and logistics teams.
